

FINANCE AND MINING.

War Talk and Eastern Markets.

SILVER AND BULLION RECEIPTS.

There is nothing particular to be reported in financial circles this week. No securities are reported to have changed hands. Quite a block of Horn silver was recently sold short at \$2.45, and filled Friday at \$2.05.

War Talk.

From *Roadstead*: The effect of a war between England and Russia on the domestic money markets has been somewhat extensively discussed during the past week. The hardening of the rate of sterling exchange on the announcement of the granting of \$55,000,000 war credit by Parliament brought the subject home to bankers and other financiers in New York. It had been heavily argued that with the value of our exports so much in excess of that of imports (some \$18,000,000 for the first quarter of the current year), and with a likelihood of foreign investment in United States government bonds and corporate securities in case of war abroad, that our gold balance was perfectly secure in any event. Events of a week have changed this view. Speculation on the Paris Bourse has tended of late to the selling up of a heavy mass of international securities there, and the demand for funds to carry them. France wants gold, and is expected to have to borrow soon. The German speculators, among other things, are loaded with Russian securities, and will want accommodations to preserve their value at as high a figure as possible. It is almost certain that Russia must make a loan. She can do it only in Germany. Both France and Germany will want gold. The English Parliamentary grant offers a new outlet for funds. Interest rates at London are hardening, and will in the event of war tend higher. Our gold will, of course, move to the centre of most remunerative employment. Speculators in stocks here have, in some instances, had an impression that a war abroad would increase English purchases of American speculative or investment securities. The present outlook does not confirm this view.

Ore and Bullion.

The ore and bullion receipts at the various banks in this city for the week ending Saturday, May 2d, amounted to \$9,016.05, against \$122,297.35 for the week previous; they were distributed as follows:

By Wells, Fargo & Co.:
 4 Cars Vienna bullion..... \$7,970.00
 4 Cars Ontario bullion..... 31,935.71
 2 Cars Christy..... 3,570.00
 Total..... \$43,205.71

By McCormick & Co.:
 10 Cars Hangar bullion..... \$22,000.00
 Queen of the Hills ore..... 4,000.00
 Minnie Moore ore..... 1,000.00
 2 Cars Stormont silver..... 3,000.00
 Nevada ores..... 1,000.00
 Total..... \$32,200.00

By Walker Bros.:
 2 Cars Alice..... \$20,810.34
 Total shipments for week..... \$96,016.05

The base metal and ore output during the past week consisted of

2 Cars bullion..... 714,298 lbs.
 2 Cars ore..... 502,320 lbs.
 11..... 1,216,618 lbs.

The Ore Market.

During the week there has been something of a boom, and not a little excitement, among miners and ore buyers, caused by the sharp competition among the latter in purchasing ores. The presence of buyers for outside smelters has helped the market materially, and good fluxing ores are really bringing more than their value. Pueblo particularly is buying heavily, and the fact that coal, coke and labor are so much cheaper there than here, enables her to bid well up for the ores she wants. Prices have been forced up over \$2 per ton, and miners are in correspondingly good spirits. Stockton continues to look extremely well, and a good many men are reported as being in the hills.

The Queen.

Guards have been called away from the mine and ore is being turned out without any cessation. From present indications, dividends will be resumed in June.

The Katherina.

Regular shipments are now being sent in from this property, which is fast coming to be recognized as one of the best ore producers about Stockton. Geo. Carter and John Robinson have an excellent property in the Katherina, and are in cheerful spirits over the result of their sales in this market.

Stormont.

Fourteen hundred shares are reported as sold in New York last week, 10 cts., 9 cts., and 8 cts. being the figures. This company have paid \$150,000 in dividends and have made no call for assessments.

Ontario.

The price has risen to \$19. The 100th dividend payable on Thursday last makes the total amount disbursed to stockholders \$5,700,000. Mr. Chambers states that the mill closes down to-morrow, after having run a year. Ore will be sold in this market, the smelters working it for a percentage.

The Spanish.

This Bingham property, which once stood near the front in the rank of ore producers, is undergoing a sort of resur-

rection, and from present prospects, will soon be turning out again. Austin H. Bemis has the mine in hand, and is fitting up concentrating works, which will shortly be in running operation.

The Lion.

The Lion mine is near Stockton, north of the Honerine. It is under lease to Messrs. Bowditch & Flint, who were both in the city yesterday, and who express themselves as being very hopeful over their prospects. They are now down 350 feet, and are turning out good quantities of ore, running \$5 to \$5.50 per cent, lead and 45 ounces silver. The company owning this mine, which undoubtedly has a bright future, is represented by Mr. Mitchener.

Honerine.

The fine indications at this property continue, and the most substantial money results are being obtained. Mr. Mitchener is working from fifty to sixty men.

Lead Mine.

Work is being actively carried on here, though the mine is not producing to its full capacity. The low price of lead is being met by the rise consequent on live competition, and this property from the character of the ore, is among the earliest to experience the benefits.

The Yosemite.

This mine continues on the even tenor of its way, producing from 270 to 300 tons of ore per month, and obtaining very favorable prices.

Alice.

Three hundred shares changed hands on April 20th and 22d at \$1.85, which is the latest quotation known.

Horn Silver.

There is a great deal of activity in the New York market, despite the stagnation here. Between April 18th and 24th 10,700 shares changed hands. The *Journal* says it was the favorite stock in the market, and dealings in it formed the feature of that week.

The Beardsley.

This mine, situated in the Bay Horse district, Idaho, was purchased last fall by the Ramsborn Company, or Gilmer, Salisbury & Co., for \$15,000, and now assumes a rank of greater importance than the Ramsborn. The Beardsley Company have attached \$100,000 worth of ore at the Crook smelter, claiming that it was extracted from their property by Woods, owner of the adjoining mine.

ANALYZING THE BAKING POWDER.

"Royal" the Only Absolutely Pure Baking Powder Made—Action of the New York State Board of Health.

Under the direction of the New York State Board of Health, eighty-four different kinds of baking powders, embracing all the brands that could be found for sale in the State, were submitted for examination and analysis by Prof. C. F. Chandler, a member of the State Board and President of the New York City Board of Health, assisted by Prof. Edward G. Love, the well-known late United States Government chemist. The official report shows that a large number of the powders examined were found to contain alum or lime, many of them to such an extent as to render them seriously objectionable for use in the preparation of food.

Alum was found in twenty-nine samples. This drug is employed in baking powders to cheapen their cost. The presence of lime is attributed to the impure cream of tartar of commerce used in their manufacture. Such cream of tartar was also analyzed and found to contain lime and other impurities, in some samples to the extent of ninety-three per cent of their entire weight. All the baking powder of the market, with the single exception of the "Royal" (not including alum and phosphate powders, which were long since discarded as unsafe or inefficient by prudent housekeepers) are made from the impure cream of tartar of commerce, and consequently contain lime to a corresponding extent.

The only baking powder yet found by chemical analysis to be entirely free from lime, and to be absolutely pure, is the "Royal." This perfect purity results from the exclusive use of cream of tartar specially refined and prepared by patent process of the N. Y. Tartar Co., which totally removes the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and on account of this greater cost it is used in no baking powder but the "Royal."

Prof. Love, who made the analysis of baking powders for the New York State Board of Health, as well as for the Government, says of the purity and wholesomeness of "Royal":

"I have tested a package of the 'Royal' Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates of any injurious substances."

E. G. LOVE, Ph. D.

DIED.

HAWKINS.—In this city, at 2:10, May 2, 1885, of nervous prostration, Sarah Moulton, beloved wife of John B. Hawkins, and daughter of Thomas and Esther Moulton, at her residence in the Eighth Ward.

Born May 5th, 1827, at Rochester, England. She leaves a loving husband and seven children to mourn her loss. She was an affectionate mother and a faithful Latter-day Saint.—Com.

Due notice will be given of the time and place of the funeral.

HILLARY.—Died at Sidney, Neb., William Hillary, of consumption, aged 28 years, 7 months, 4 days.

Deceased in a brother of John E. Hillary of Tintic, Utah.

Funeral in this city from Undertaker Joseph William Taylor's office, 21 West Temple Street, at 5 p.m. to-day.

"Bachu-Paiba."

Quick, complete cure, all Kidney, Bladder and Urinary Diseases, Scalding, Irritation, Stone, Gravel, Catarrh of the Bladder, etc. Price, 25c.

HOME MARKETS.

To Farmers, Miners and General Dealers: All quotations given in this column are corrected daily from a careful inspection of the different markets; prices quoted are at wholesale rates, and retail buyers must expect to pay somewhat higher figure:

EASTERN MARKETS.

Money, Stocks, Grain and Cattle Reports.

Petroleum.
 New York, May 2.—Petroleum—closed 79.

New York Money Market.
 New York, May 2.—Money easy at 1; closing 1. Prime paper 4 @ 5. Exchange bills dull at 4.85. Sterling exchange demand, 4.88.

New York Wool.
 New York, May 2.—Wool—Quiet; barely steady. Domestic fleeces..... 27 @ 30; Pulled..... 14 @ 32; Texas..... 9 @ 21

Bank Statement.
 New York, May 2.—The weekly statement of the associated banks shows the reserve increase is \$1,909,000. Banks now hold \$55,141,000 in excess of the legal requirements.

Bullion.
 New York, May 2.—Bar silver, 108 1/2.

New York Mining Market.
 New York, May 2.—The *Mail and Express* says: The demand for mining shares was not heavy to-day. Standard was a feature of the trading, advancing from 1.10 to 1.30, with numerous transactions. Among the other sales were: Sierra Nevada 48, Plymouth at 15 1/2; Gold Strike at 15; Navajo at 1.55; Horn Silver at 2.15; Green Mountain at 45; Sutor Tunnel at 15; Standard at 1.15 @ 1.25.

New York Stock Market.
 New York, May 2.—Wall Street. All active stocks a shade lower at opening; market very dull.

New York, May 2.—Stocks dull, but strong. Prices during the past hour show a slight advance.

New York, May 2.—Stocks firm and dull throughout the afternoon until late in the day, when they yielded a fraction and closed heavy at a decline.

New York, May 2.—Governments quiet and strong. Four advanced 1/4, while 3s yielded to 102 1/2. The week closed at the Stock Exchange to-day without material change in the general situation. The market continues very dull, but at the same time is very firmly held. The advocates of higher prices in the near future insist that the stocks are nearly all lodged in strong hands, making it practically impossible for the bears to shake out any considerable amount by the hammering process. Prices were a shade lower this morning on a renewed attack of the bears, upon the whole list, but the declines were very small, and during the remainder of the day the market continued dull and strong until late in the afternoon, when it yielded a fraction, but closed firm at declines. Union Pacific and Missouri made net gains of 1/4. Some leading bull operators claim to have been letting the market alone, simply to demonstrate its inherent strength and that a decided upward movement will be started next week, in which Union Pacific, Western Union, Lackawanna, Northwestern, Missouri, Kansas & Texas and Pacific Mail will be prominent stocks. There is renewed talk of an effort to induce the Union Pacific directors to resume dividends on July 1st. The total sales this week have amounted to only 755,000 shares, a decrease from last week of 250,000 shares. The changes in prices, as compared with last Saturday, are unimportant, in most cases for less than 1 per cent. Omaha preferred is 3 1/4 lower.

Chicago Grain Trade.
 CHICAGO, May 2.—The market, after ruling weak, early gathered more strength and closed moderately firm.

Wheat—89 1/2 cash-May, 91 1/2 June, 83 1/2 July.

Corn—49 1/4 cash and May, 49 June, 49 1/2 July.

Oats—37 1/2 May and June.

Whisky—15.

Afternoon.
 Rye—Firm; 68 1/2.

Barley—Nominal.

Pork—Ruled 5 to 10 lower early, but rallied again; June 11.49 1/2 @ 11.40 1/2, closed 11.05 @ 11.07 1/2.

Lard—Moderate request; June 6.90 @ 6.92 1/2, closed 6.92 1/2.

Boxed meats steady; dry salted shoulders, 4.45 @ 4.50; short ribs, 5.75 @ 5.80; short clear sides, 6.20 @ 6.25.

Chicago Cattle Market.
 CHICAGO, May 2.

Cattle—Receipts 5,000; slow, weak, 10 lower; shipping, 1,000 to 1,350 pounds, 4.05 @ 4.50; extra, 5.40 @ 5.75; stockers and feeders, 4.00 @ 5.00.

Hogs—Receipts 11,000; 5 lower; closed stronger; rough and mixed, 4.10 @ 4.35; packing and shipping, 4.35 @ 4.55; light, 4.30 @ 4.60.

PHYSICIANS AND DRUGGISTS RECOMMEND IT.

IRON
 BROWN'S
 BLOOD
 BATTERS

THE BEST TONIC.

This medicine, combining iron with pure vegetable tonics, quickly and completely cures Dyspepsia, Indigestion, Weakness, Impure Blood, Malaria, Chills and Fevers, and Neuralgia.

It is an unfailing remedy for Diseases of the Kidneys and Liver.

It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It does not injure the teeth, cause headache, or produce constipation—other iron medicines do.

It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves Heartburn and Belching, and strengthens the muscles and nerves.

For Intermitting Fevers, Lassitude, Lack of Energy, etc., it has no equal.

The genuine has above trade mark and crossed red lines on wrapper. Take no other.

Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

A POSITIVE
 CURE.

ALLAN'S SOLUBLE MEDICATED BOUGIES.

Non-sensuous doses of cubeb, copaiba or oil of sandalwood that our certain to produce dyspepsia by destroying the coaction of the stomach.

Price \$1.00. Sold by all druggists or mailed on receipt of price. For further particulars send for circular.
